

The image consists of three vertical panels. The left panel shows a single, long, light-colored wooden board with a smooth surface and visible grain. The middle panel shows a stack of several similar wooden boards, showing the edges and the consistent grain pattern. The right panel shows a wooden board being processed by a large industrial machine in a factory setting. The machine has a white body and a large, curved, orange-colored flexible duct. The board is positioned on a conveyor system, and the machine appears to be sanding or finishing the surface.

The collage consists of three photographs. The leftmost image shows a rustic wooden crate with a handle, used as a planter for small white flowers, sitting on a white table next to a small metal pot. The middle image shows a wooden deck made of horizontal planks, with a wicker basket of white daisies and a small black metal planter with white flowers in the background. The rightmost image shows a dining room with a wooden table and chairs, a large wooden sculpture in the background, and a window with a yellow and black patterned curtain.
