

Verkoold populierenhout is een houtsoort die een hittebehandeling ondergaat bij hoge temperaturen, wat de duurzaamheid en corrosieweerstand verbetert. De kleur wordt donkerder, wat een uniek esthetisch effect oplevert. Dit proces maakt het hout stabiel, vermindert uitzetting of krimp als gevolg van veranderingen in de luchtvochtigheid en verbetert de weerstand tegen ongedierte en natuurrampen. Verkoold hout wordt ook als een milieuvriendelijk materiaal beschouwd omdat de productie ervan niet afhankelijk is van chemische conserveermiddelen.

Verkoold populierenhout wordt vaak gebruikt in tuinmeubilair, hekken, terrassen en landschapsarchitectuur. De stabiele prestaties maken hem ook geschikt voor gebruik rond zwembaden en andere omgevingen met een hoge luchtvochtigheid. De milieuvriendelijke eigenschappen van verkoold hout maken het een populaire keuze in duurzaam bouwontwerp, geschikt voor muren, vloeren en interieurdecoratie.

Wij zijn een fabriek van massief hout en melaminekarton met meer dan 10 jaar geschiedenis in China. We concentreren ons op de productie van massief houtproducten en verkoold populierenhout is de laatste tijd de nieuwste groeitrend op de markt geworden. Wij bieden groothandelsdiensten voor verkoold populierenhout. Nu werken we samen met meer dan 100 meubel-, kasten-, houtverwerkings- en houthandelsbedrijven op de mondiale houtmarkt.
