

Pine wood is popular around the world for its rapid growth and wide adaptability. It has a soft texture, is easy to process, and has good anti-corrosion and durability. The light yellow brown color tone gives a natural and warm feeling, making it a popular and practical material.

Pine wood is widely used in furniture, flooring, doors and windows, and interior decoration. Its excellent anti-corrosion and durability make it an ideal choice for outdoor landscape design and building materials, such as for terraces, decks, and fences.

We are a solid wood and melamine board factory with over 10 years of history in China. Now, we cooperate with more than 100 furniture,

cabinets, wood processing, and wood trading companies from the global wood market.
