

Характеристики продукта

Отличный материал: Отбираются журналы тополя с соответствующим циклом роста, с чистым зерном и равномерной текстурой, которая обеспечивает прочность и стабильность досок.

Высокий стандарт защиты окружающей среды: Использование химических веществ строго контролируется во время обработки, что соответствует международным экологическим стандартам и защищает здоровье вас и вашей семьи.

Хорошая производительность обработки: Легко вырезать, тренируйтесь, вырезайте и другие операции по обработке, чтобы удовлетворить ваши потребности в различном творческом дизайне, будь то мебель (мебель ([Карбонизированная мебельная доска из карбонизированного тополя](#))), Декоративные предметы или архитектурные компоненты с легкостью.

Разнообразие размеров: Предоставьте различные стандартные размеры для вашего выбора, но также поддерживайте индивидуальные размеры для удовлетворения отдельных требований различных проектов.

Богатая обработка поверхности: мы можем обеспечить белую грунтовку и другую обработку поверхности, и мы также можем настроить цвет в соответствии с вашими потребностями, чтобы удовлетворить различные эстетические и практические требования к применению.

Хорошая защита: Он обладает определенными водонепроницаемыми, противоязочными и анти-заразными показателями, которые продлевают срок службы продукта и снижают стоимость технического обслуживания.

□[Китайский карбонизированный тополь](#)□

Преимущества продукта

Свет как перо, трудоемкая обработка: Плотность всего 0,42 г/см³, на 30% легче, чем дуб, более трудоемкая обработка и резка.

Прямая текстура, ценность онлайн: Натуральный светлый кремовый цвет зерно мягкого дерева, легко адаптируемое к скандинавскому стилю, стилю бревна, промышленному стилю.

Легко обрабатывать, новичок дружелюбный: Характеристики хвостовой древесины, ручная/механическая обработка без давления, гладкие края резания без шероховатости.

Экологичная сертификация, больше душевного спокойствия: Сертификация FSC устойчивого лесного хозяйства является необязательным, уменьшая бремя на земле и добавив к качеству

Эксклюзивные преимущества

Ноль формальдегид: Использование экологически чистых клеев, через тест SGS, семьи и дети могут быть уверены в использовании.

Ультратонкая сушка: Содержание воды строго контролируется на уровне 8%-12%, против прохождения и деформации, общими как для северных, так и южных регионов.

Однопроницаемая настройка: Лазерная гравюра, резак с формой, пакетная краска - назовите спрос, мы сделаем это!

SHANDON, MISSOURI

has demonstrated state-of-the-art inspection and monitoring, the accuracy of the product equivalent to that of the best. The following are the key features of the product:

- **High Accuracy:** The product is designed to provide accurate measurements of the product's physical properties, such as its weight, volume, and density.
- **High Precision:** The product is designed to provide precise measurements of the product's physical properties, such as its weight, volume, and density.
- **High Reliability:** The product is designed to provide reliable measurements of the product's physical properties, such as its weight, volume, and density.
- **High Efficiency:** The product is designed to provide efficient measurements of the product's physical properties, such as its weight, volume, and density.
- **High Flexibility:** The product is designed to provide flexible measurements of the product's physical properties, such as its weight, volume, and density.
- **High Scalability:** The product is designed to provide scalable measurements of the product's physical properties, such as its weight, volume, and density.
- **High Security:** The product is designed to provide secure measurements of the product's physical properties, such as its weight, volume, and density.
- **High Compatibility:** The product is designed to provide compatible measurements of the product's physical properties, such as its weight, volume, and density.
- **High Interoperability:** The product is designed to provide interoperable measurements of the product's physical properties, such as its weight, volume, and density.
- **High Integration:** The product is designed to provide integrated measurements of the product's physical properties, such as its weight, volume, and density.
- **High Automation:** The product is designed to provide automated measurements of the product's physical properties, such as its weight, volume, and density.
- **High Customization:** The product is designed to provide customized measurements of the product's physical properties, such as its weight, volume, and density.
- **High Adaptability:** The product is designed to provide adaptable measurements of the product's physical properties, such as its weight, volume, and density.
- **High Scalability:** The product is designed to provide scalable measurements of the product's physical properties, such as its weight, volume, and density.
- **High Security:** The product is designed to provide secure measurements of the product's physical properties, such as its weight, volume, and density.
- **High Compatibility:** The product is designed to provide compatible measurements of the product's physical properties, such as its weight, volume, and density.
- **High Interoperability:** The product is designed to provide interoperable measurements of the product's physical properties, such as its weight, volume, and density.
- **High Integration:** The product is designed to provide integrated measurements of the product's physical properties, such as its weight, volume, and density.
- **High Automation:** The product is designed to provide automated measurements of the product's physical properties, such as its weight, volume, and density.
- **High Customization:** The product is designed to provide customized measurements of the product's physical properties, such as its weight, volume, and density.
- **High Adaptability:** The product is designed to provide adaptable measurements of the product's physical properties, such as its weight, volume, and density.
